

ABERDEEN SERVICE CENTRE

Celeros Flow Technology operates one of the largest OEM pump installed bases in the North Sea. Our Aberdeen centre reinforces this position by providing industry-leading service backed by global resources.

24-Hour Service | 1,557 m²

Brands:  CLYDEUNION® PUMPS |  COPES-VULCAN®

QUALITY FULL LIFE-CYCLE SERVICE

Located in the heart of ABZ Business Park, the Celeros Flow Technology (FT) Aberdeen Service Centre delivers world-class support to the onshore energy sector. Our facility is built around one principle: putting our customers at the centre of everything we do. From fast mobilisation to engineered reliability solutions, we provide the full spectrum of pump service, repair, upgrade, and lifecycle support.

With decades of OEM heritage behind us, our team combines deep technical knowledge with the agility of local decision-making. This enables us to respond quickly, engineer efficiently, and support your operations 24/7.

FACILITY SNAPSHOT

Certifications: FPAL Registered, MIST, Offshore mobilisation certification, ISO 9001, and ISO 14001 Management Systems.

Products & Services: Full service and repair centre for onshore pumps, valves, and rotating equipment across Celeros FT and legacy brands.

Key Equipment:

- CNC Milling Machine
- 3000mm Bed Lathe
- Radial Arm Drill
- Balancing Machine
- 10-tonne Overhead Crane
- Hydrotesting Facilities
- Specialist Assembly Fixtures & Tooling

Engineering & Technical Expertise

Our teams have direct access to extensive OEM databanks containing thousands of technical drawings, allowing us to support original equipment, re-engineer legacy components, and deliver accurate, reliable replacements. We provide upgrades, retrofits, re-rates, application engineering, and consultancy services to keep your assets performing at their best.

Workshop Services & Overhauls

Our modern facility supports full strip, inspect and rebuild activities, including third-party pump refurbishment, condition monitoring, assembly, testing, and extended-storage preparation.

Emergency Response & Rapid Parts Support

We supply OEM components, engineered replacement parts, and critical spares with fast turnaround when uptime is essential.

Field Services & Mobilisation

Our field service teams are available 365 days a year, 24 hours a day for onshore and offshore mobilisation. From installation and commissioning to corrective maintenance and emergency repair, we respond rapidly to ensure minimal downtime.
